Studies using HIBICLENS

- Epidemiology and Burden of Mucosal Barrier Injury Laboratory-Confirmed Bloodstream Infections in Bone Marrow Transplant and Hematology-Oncology Units:
  May M. Riley, RN, MSN, et al, APIC Poster Presentation, 2017

- Cessation of Contact Isolation for Endemic MRSA and VRE is Not Associated with Increased Infections:

- Using Bundled Interventions to Reduce Surgical Site Infection After Major Gynecologic Cancer Surgery:

- Cancer Center’s Experience Converting from Chlorhexidine Gluconate Impregnated Wipes to Chlorhexidine Gluconate Shower on Inpatient Blood and Marrow Transplant Unit:
  Stephanie Carraway, BS, et al, Lee Moffitt Cancer Center, APIC Poster presentation, June 2015

- Utilizing Chlorhexidine Gluconate Bathing to Decrease Symptoms of Infection and Antibiotic Use in Residents on a Post-Acute Ventilator/Special Needs Unit:

- Colorectal Surgery Surgical Site Infection Reduction Program: A National Surgical Quality Improvement Program Driven Multidisciplinary Single-Institution Experience:
  Robert Cima, MD, et al.; on behalf of the Colorectal Surgical Site Infection Reduction Team, Mayo Clinic, 2013

- Zero Catheter Associated Urinary Tract Infections in the Medical Intensive Care Unit at Yale-New Haven Hospital:
  (YNHH), Laura DeVaux, Harry Byrne, et al. Poster Presentation Critical Care Nurses, 2013

- Chlorhexidine Gluconate Bathing Tolerance in Bone Marrow Transplant and Leukemic Patients:
  Holly Briere RN, BSN, OCN; Bonnie Chapman RN, MPH, Bone Marrow Transplant Unit, University Hospital at SUNY Upstate Medical University, Syracuse, NY, Oncology Nursing Society Annual Congress: Clinical/Evidence-Based Practice Abstracts, 2013

- Effect of Hospital-wide Chlorhexidine Patient Bathing on Healthcare-Associated Infections:
  Rupp ME, et al. Infection Control and Hospital Epidemiology, November 2012

- The effect of daily bathing with chlorhexidine on the acquisition of methicillin-resistant Staphylococcus aureus, vancomycin-resistant Enterococcus, and healthcare-associated bloodstream infections: Results of a quasi-experimental multicenter trial:
  Michael W. Climo, et al, Critical Care Medicine, 2009
